

0-5 Activity Sheet

Egg Carton Crocodile

When you have finished making a crocodile it will be lots of fun walking around and making crocodile noises.

What you need:

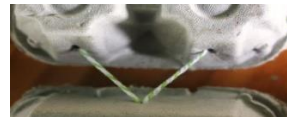

- 3 long egg cartons
- 2 googlie eyes or make paper one's
- Scissors
- String
- Green paint and paint brushes

How to:

1. Take one egg carton and cut along halfway through where the lid folds back. Then make some triangle shapes to form teeth -this will be the crocs jaws.

2. Next, make a hole in the other end of the crocs jaws and the second egg carton poke string through the holes and tie them together.

3. Take the string and tightly tie the third egg carton (upside down) onto the top of the other two, to form the crocs back and head.

4. Now for the fun part for small children. They get to paint their crocodile green and glue on the eyes.
