

Scenic Rim Regional Council Infrastructure Charges Register

This register consists of three parts:

- 1) The infrastructure charge register required to be kept by Council under the *Sustainable Planning Regulation 2009*.
- 2) The infrastructure charge register required to be kept by Council under the *Planning Regulation 2017*.
- 3) Infrastructure Information required to be kept by Council under the *Planning Regulation 2017*.

This register extract is current as at **4 February 2025** and is updated on a monthly basis

Explanatory Notes:

- 1 This information should be interpreted in conjunction with the development application Decision Notice and other relevant documents in the Decision Package which can be obtained online, along with a copy of the Infrastructure Charges Notice, through DAP online
- 2 The Real property description column shows the premises to which the levied charge applies. Note that the format used is '1RP12345' rather than 'Lot 1 RP 12345'
The **date development approval will lapse** column shows when a development approval will lapse in accordance with the provisions of the Act applicable to the development approval.
- 3 Where the development approval was given under the Act, the day must be determined in accordance with Chapter 3, Part 5, Division 4 (Lapsing of and extending development approvals). The date a development approval will lapse may be extended in accordance with section 275R of the Act, owing to an applicable event declared under section 275E(2) of the Act (the COVID-19 emergency has been declared such an applicable event).
- 4 Differences between the **levied charge**, the **amount paid** and the **amount outstanding** may be due to indexation or other discounts given (such as through an infrastructure agreement)
- 5 Development applications may have more than one Infrastructure Charges Notice (ICN) levied against them (e.g. staged application)

An overview of how infrastructure charges revenue is collected and expended:

- Infrastructure charges are collected in monetary form and in non-cash form as trunk infrastructure may be provided by a developer in lieu of paying the levied infrastructure charge.
- Not all infrastructure charges that are levied through development are collected by the local government, as the development approval may lapse.
- Under the Planning Act 2016, infrastructure charges revenue that is collected in monetary form, is not required to be spent in the same suburb or locality where it was collected.
- Infrastructure charges revenue may be used to pay for shared regional scale infrastructure such as an arterial road or sewerage treatment plant.
- Offset provisions under the Planning Act 2016, also allow for an entire infrastructure charge, relating to more than one network, to be applied against the cost of infrastructure to be provided under a condition of development (i.e. the construction of an arterial road).
- Due to slow development growth, infrastructure charges that are collected may sit with a local government for a period of time, before being spent on trunk infrastructure.
